A rubbing

An image that is created by laying paper over an incised (cut) or raised surface and rubbing with a crayon or pencil.

Lithograph by Pablo Picasso

Henri Matisse – Cut out printing

What is printing? Making a print involves transferring an image from one surface to another. What is a repeating print? This printing process can result in repeated identical images over and over again. What are the different types of printing? There are four main types of printmaking: relief, intaglio, lithography, and screen printing. Each colour in a print usually requires a separate stone, plate, block, or stencil, and any of these basic processes might be combined in the creation of a finished work.
