Change	To make something different

Sticky Knowledge

Troopers Hill Local Nature Reserve is a hillside overlooking the River Avon that has been quarried and mined in the past. Over the years, the hill has been quarried for sandstone and also deeper underground for coal and fireclay.

The Chimney was built as a vent from the copper works at the bottom of the hill.

The works closed in 1981 and Troopers Hill was named a local nature reserve in 1995.
