## Sticky Knowledge

People change over time, we grow from babies to toddlers, children to teenagers then young adults to elderly. The way we look changes as we grow and the things that we can do also changes.

<b>Child</b> <b>4-12 years</b> At this stage, your body will start to grow bigger and stronger.		<b>Teenager</b> <b>13-19 years</b> At this stage, your body starts to become more like an adult.		<b>Adult</b> <b>18+ years</b> At this stage, your body is fully developed.	
---	---	--	---	--	---

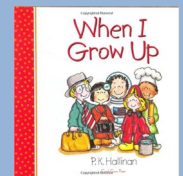

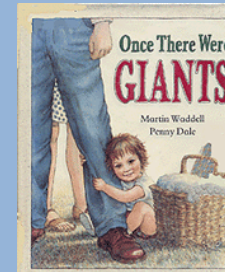

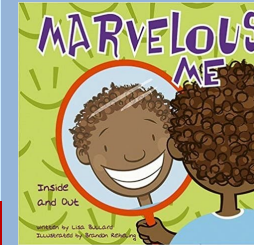

Different aged people own different things, this is another way that can help us tell someone's age.

Events in our lives happen in time order.

1. Go to nursery
2. First day at school
3. 5th Birthday party
4. Meeting year 1 teacher

## Interesting Books

## Research at home

Find a picture of each member of your family.

How are you different to your parents, what about your grand parents?

Discuss what your parents can do that you can't such as drive a car or go to work.
